NAME

Name of the Child/Student .....

Address

Date

## **Re:- COVID-19 (Restriction of Access to Specified Institutions) Regulations 2021**

I have taken note of the new Regulations mentioned above in relation to mandatory vaccination.

Following legal advice received, I am of the opinion that the said Regulations are in direct violation of the fundamental rights and liberties enshrined in the Constitution of Mauritius, as well as transgressing various other existing laws, in particular the Data Protection Act 2017, which guarantees the protection of personal data, in particular sensitive medical information.

I am therefore hereby informing you that I have no obligation whatsoever to produce any proof of vaccination or PCR test.

I thank you for your understanding, and I would also like to draw your attention on the importance that all citizens of Mauritius comply with the laws which protect our civil liberties, in order to avoid any subsequent legal liabilities, including the obligation to compensate anyone who has been prejudiced by the implementation of these new Regulations.

Yours faithfully,
